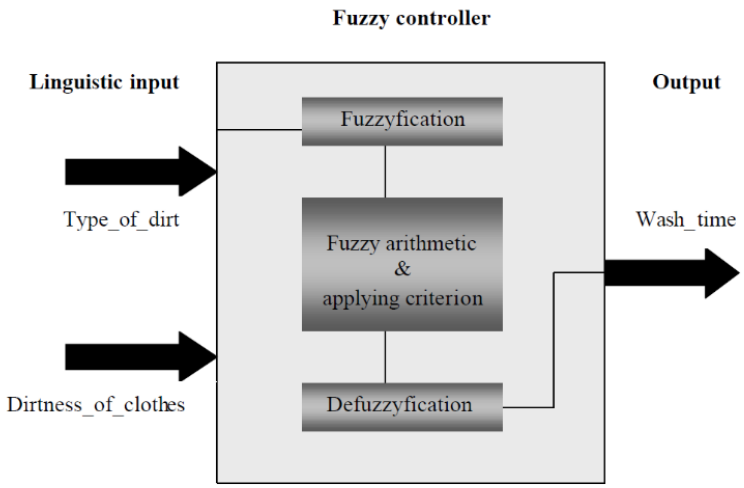
Practical Class activity – FUZZY LOGIC

Artificial Intelligence (Practical class) 1100-AI0UEN
Course schedule - Winter Semester 2023/2024

Question:

Create a fuzzy control system unit for a washing machine System and finally, you must obtain a wash time for the specific situation given any example value as input.

Hint: Use "Mandani" as the graphical technique of inference, you can use the weighted average method for defuzzification.



------END OF THE ACTIVITY-----
